Venturi and Scott Brown explore architectural mannerism

Architects/theorists Robert Venturi FAIA and Denise Scott Brown RIBA come to the BSA Lecture Series this month on **January 22** to explore "Architecture as Communication and Activities as Patterns in a Mannerist Architecture for Today".

"We consider a building's programmed uses as parts of a broader pattern of urban activities that run to and through the building and form its context," note Venturi and Scott Brown. "Therefore, we do urban land use and transportation planning *inside* buildings."

Venturi and Scott Brown consider architecture "not only as space but as communication... evolving from the new electronic technology that's found in current American commercial

vernacular buildings but evolving also from a long historical tradition." (The image above is the Provincial Capitol Building in Toulouse.)

For their firm in Philadelphia — Venturi, Scott Brown and Associates — Venturi focuses on architectural projects and Scott Brown typically leads the firm's urban planning, urban design, campus planning and architectural and facilities programming efforts.

This rare opportunity to encounter these two prolific designers/writers/lecturers begins at 6:00 pm in the Boston Public Library's Rabb Lecture Hall in Copley Square. There is no charge and all are welcome.

Artery design ideas are focus of special presentation

On **February 4**, the BSA and the Boston Society of Landscape Architects host a special public presentation at the Boston Public Library of the design ideas submitted over the past several months for the North End, the Wharf District, and the Chinatown/Leather District parcels along the Central Artery.

A team that includes Boston-based Wallace Floyd Design Group and Seattle's Gustafson Partnership was selected in late November as the designers for the North End Parcel and, teams for the other

The February 4 event at the BPL is free and open to everyone in the city and includes a panel discussion among leading design professionals throughout the U.S., comments by Boston Mayor Tom Menino and Massachusetts Turnpike Authority (MTA) commissioner Matt Amorello, and an exhibit of over 50 of the design ideas exhibit boards submitted to the MTA.

We begin at 6:00 pm in the Rabb Lecture Hall at the BPL; there is no charge and all are welcome.

Boston Architectural Center

	Event	Location/Sponsor	Cost/RSVP
January 6–February 21 M-F, 9:00 am–5:00 pm Opening reception: January 14	"Harbor Islands" — a BSA photo exhibit focusing on Boston's Harbor Islands by architect/photographer Pat Morss, Jr. AIA (see p. 4).	The Architects Building Sponsored by Suffolk Construction Co.	Free
January 7 & February 4	"Career Transition Network" — the monthly gathering of unemployed design professionals (see p. 3)	The Architects Building Sponsored by the BSA's Career Transition Network and the BSA Membership Committee	Free RSVP: 617-951-1433x221 bsa@architects.org
January 9	"Young Designers Professional Development Institute" — the fourth annual edition of this year-long training curriculum for young designers (see p. 9)	Location varies Sponsored by the BSA and Gathering Pace Consulting	Details: rfitzgerald@architects.org 617-951-1433x232
January 13 6:00–8:00 pm	"Working Abroad" — the monthly series focusing on New England architects working abroad	The Architects Building Sponsored by the International Committee	Free RSVP: 617-951-1433x221 bsa@architects.org
January 16 6:00–8:00 pm	"Corporate Affiliates/Professional Affiliates Reception" — the BSA hosts a special reception for Corporate Affiliate Members and Professional Affiliate Members	The Architects Building	Free RSVP: 617-951-1433x221 bsa@architects.org
January 21 6:00–8:00 pm	"Women in Design" — the monthly networking forum for women in the design professions; this month we focus on patrons/clients (see p. 3)	The Architects Building Sponsored by the BSA Women in Design Network	Free RSVP: 617-951-1433x221 bsa@architects.org
January 22 6:00–7:30 pm	"Venturi and Scott Brown" — Robert Venturi FAIA and Denise Scott Brown RIBA explore "design as communication" in the BSA Lecture Series (see p. 1)	Boston Public Library	Free
January 23 5:30–7:30 pm	"BRA Priorities" — Rebecca Barnes FAIA, chief planner for the City of Boston, describes the BRA's West End planning process and other priorities (see p. 3)	Cambridge Seven Associates, 1050 Mass. Ave., Cambridge Sponsored by the BSA Urban Design Committee	Free RSVP: John Stebbins AIA 617-492-7000 jstebbins@c7a.com
January 30–February 1	"Air Barriers Workshop" — a special limited-enrollment workshop focusing on new software for air-barrier design	The Architects Building	Cost varies Details: 617-951-1433x221 bsa@architects.org
February 4 6:00–8:00 pm	"Design Ideas for the Artery" — the first public presentation on over 50 design ideas for the major Artery parcels (see p. 1)	Boston Public Library Sponsored by the BSA and the BSLA	Free
February 4 6:00–8:00 pm	"A Foot in the Door" — the first in a series of Career Programs focusing on finding a job and related professional activities (see p. 5)	The Architects Building Sponsored by the BSA Membership Committee	Free RSVP: 617-951-1433x221 bsa@architects.org
February 7 8:00–10:00 am	"Getting Federal Work" — a special seminar on the federal procurement process (see p. 4)	The Architects Building	Cost varies Registration details: bsa@architects.org 617-951-1433x221

MicroStation users gather

Design professionals currently using—or interested in exploring—MicroStation gather this month on **January 28** to share information and tips, to do some collective problem-solving, and to otherwise explore this software package.

Founded by Ann Gleason AIA a few years ago, the MicroStation Users Group has not gathered as a group for some time and is being reassembled this month by Jane Yates, Assoc. AIA of Bruner/Cott & Associates.

The group gathers on January 28 at Bruner/Cott's office at 130 Prospect St. just off Central Square in Cambridge. We will have use of Bruner/Cott's PC stations and MicroStation v8. All MicroStation users are welcome to join us but you must let us know you are coming so we order enough beer and pizza. To confirm, write/call Yates at jjates@brunercott.com/617-492-8400x140. You are also invited to e-mail suggestions, questions and comments to Yates. 

Unemployed? Join us

As the building industry copes with the uncertainties of this economy, lay-offs are affecting some BSA members and allies. To provide some assistance to members and industry allies who are seeking work, the BSA's Career Transition Network hosts monthly lunch gatherings designed to share information and advice that may be useful in the job search, in identifying new career paths, in acquiring new skills, and in otherwise taking the steps necessary to reach the next career goal.

There is no charge for these BSA lunches and all BSA members and our allies in all of the design and construction professions are welcome to join us for these informal conversations.

The next gatherings are **January 7** (noon–2:00 pm for lunch) and **February 4** (at 6:00 pm for beer and pizza). Although there is no charge, reservations are required so we order enough lunch/beer/pizza. To reserve your seat at either event, call/write 617-951-1433x221/bsa@architects.org no later than 9:30 am on the day of the meeting. (For more details on the February 4 event, see p. 5.)

In the meantime, with questions or suggestions, call/write Richard Fitzgerald at the BSA at 617-951-1433x232/rfitzgerald@architects.org. 

Finance wizards examine firm performance standards

The group of design-firm financial management professionals that meets monthly at the BSA this month gathers on **January 15** for a roundtable lunch discussion of key financial indicators that describe local architecture firms and audit procedures.

This discussion is led by Tom French CPA, Dave Sullivan CPA, and Dave Swan CPA, all of Tofias PC. The annual survey of key indicators that Tofias administers is the focus of this discussion.

These monthly gatherings of the Finance Wizards are open to all members and friends who serve in financial management roles in design firms. There is no charge but you must RSVP by 9:30 am on the day of the meeting by writing/calling 617-951-1433 x221/bsa@architects.org. 

Boston's chief planner describes priorities

Rebecca Barnes FAIA, Chief Planner for the City of Boston, is the guest this month at the **January 23** meeting of the BSA Urban Design Committee. The City's West End planning process and other BRA efforts are among the issues Barnes will address. This is also an opportunity for all BSA members and friends with an interest in urban design to play a role in the Urban Design Committee's ongoing examination of development proposals in Boston.

All members and allies are welcome at all Committee meetings, which begin at 5:30 pm in the offices of Cambridge Seven Associates (1050 Mass. Ave., Cambridge). Although there is no charge, reservations are required so we order enough food; write/call Committee co-chair John Stebbins AIA at jstebbins@c7a.com/617-492-7000 no later than 9:30 am on January 23 to let us know you are coming. 

We explore the contemporary roles of patrons/clients

On **January 21**, in this month's edition of the Women in Design Network's series of "Conversations", we assess the contemporary perceptions of creative patrons/clients and the ways in which their roles have evolved. We begin at 6:00 pm at The Architects Building, 52 Broad Street, Boston. The event is free and open to all but reservations are required to enable us to order adequate refreshments. To reserve your seat, write/call bsa@architects.org/617-951-1433x221 no later than 9:30 am on the day of the event. 

Find it on-line

Visit the award-winning BSA website at www.architects.org for details on all BSA news and events and other industry news, events and information.

Small firms take a test

The Myers-Briggs Type Instrument (MBTI) is the most widely used, best-validated and researched personality assessment tool available. Knowing one's "type" often makes it easier to explain why we pay attention to some things and not others, and why we make decisions the way we do. It also helps us value personal differences among people and use these differences constructively, thus making problem-solving more effective.

At our **January 16** meeting at the BSA at noon, organizational development consultant Barbara Bates leads us in this preliminary introduction to the fascinating field of team dynamics.

These monthly gathering of the Small Firms Committee are open to all members and allies. There is no charge but you must reserve your seat by writing/calling bsa@architects.org/617-951-1433x221 no later than 9:30 am on the day of the meeting so we order enough lunch for everyone.

*Deborah Pierce AIA, Co-chair
Small Firms Committee*

Harbor islands' beauty is exhibited at BSA

Boston has a hidden treasure within view of its waterfront. Ridiculed for years for its "muddy waters", Boston Harbor has been cleaned and we are just beginning to discover the variety of educational and recreational opportunities offered by the 34 islands in our harbor.

Congress established the Boston Harbor Islands National Park Area in 1996 as our newest national park. It is unique in that the islands are owned and administered by nearly a dozen federal, state, municipal and private agencies and organizations. This challenging reality prompted Congress to create a 14-member Boston Harbor Islands Partnership to draw up a management plan for island uses and to fund operations. The National Park Service oversees operations and the non-profit Island Alliance

raises and manages the funds. The Partnership is supported by a 28-member advisory council representing the various interest groups.

One of those advisory council members — architect/ photographer Sherman "Pat" Morss, Jr. AIA — has been photographing the islands at every opportunity. He notes that he had access to all of the islands (except a rock or two) by taking public ferries or accompanying researchers who are inventorying the national and cultural resources of the islands. An exhibit of some of Morss' 1,200 photographs will be on display in The Architects Building from **January 6 through February 21**.

A special reception is scheduled for **January 14** at 5:00 pm and everyone who is ready to be stunned by beautiful photographs of our islands is invited to join us.

Do you want federal work?

Over the last few years, the U.S. General Services Administration (GSA) has been working hard to improve the way architects are selected for federal projects and to elevate the quality of federal design work. This year, for the first time, three federal projects (designed by Morphosis) were exhibited at the Venice Biennale and the O'Connor Federal Courthouse in Phoenix (designed by Richard Meier & Partners) was recently cited as one of the five best buildings of the new millennium.

As the builder for the federal civilian government, the GSA developed the Design Excellence Program to simplify the way it selects architects and engineers for new and major renovation projects and also to open up opportunities for emerging design talent at both small and large firms; the GSA is encouraging these and other design professionals to pursue the new courthouses, border stations, large-scale renovations, and other federal contracts.

On **February 7**, Casey Jones (from the GSA Office of the Chief Architect in Washington) and Thomas Mailander (director of the GSA's New England Region Property Development Division) come to the BSA to describe the federal procurement process, the nature and range of work available now, and the application process.

This 8:00–10:00 am presentation on February 7 includes coffee and bagels. The fee is \$25 (\$10 for BSA members); advance registration is required and your reservation must reach the BSA no later than February 5. Mail reservations with payment to GSA Session, BSA, 52 Broad St., Boston 02109 or e-mail/fax credit-card reservations with payment to bsa@architects.org/fax 617-951-0845.

PSMJ prognosticates

In a special presentation on January 15, PSMJ Resources founder and CEO Frank Stasiowski FAIA (below) offers a look at the future of our profession during the next decade.

During this 8:00–10:00 am breakfast presentation co-sponsored by the BSA, Stasiowski focuses on eight trends he believes will shape our profession and our industry in the near future. It begins at 8:00 am at the Back Bay Hilton in Boston.

For reservation details, call/write PSMJ's Kathy Harvey-Ellis at 800-537-7765 x43/kellis@psmj.com.

Architects in corporate and institutional roles reconnoiter

Gensler's approach to "performance mapping" is the focus of the **January 22** lunch meeting of the BSA's Corporate/Institutional Architects Network.

This network is the rebirth of the lunchtime roundtables enjoyed by design professionals who work in corporate/institutional/industrial and similar settings as facility managers or in other staff capacities. All BSA members and allies are welcome to join us for what will be the first in a series of monthly roundtables of this network. The discussion of performance mapping will focus on the identification of performance goals and the ways in which good design serves corporate and institutional clients, the ways we identify clients' goals and expectations, the ways in which we structure the project to realize these goals, and ways in which we can measure success. Please join us with your questions, your own experiences, and the tools you use in this process.

There is no charge but reservations are required by 9:30 am on the day of the meeting to enable us to order enough lunch. To make your reservation, write/ call bsa@architects.org/617-951-1433x221. 

*Mark Francis AIA, Chair
Corporate/Institutional Architects Network*

Can you get your foot in the door?

What are the ingredients of a successful job interview? How *do* you get your foot in the door? What do firms see when they look at your portfolio and your resume?

These are among the questions we address at a special Career Programs discussion on **February 4**, 6:00 – 8:00 pm at the BSA. Sponsored by the BSA Membership Committee, the intent of this session – "Nuts and Bolts: Getting Your Foot in the Door" – is to help professionals at all age and career levels to think anew about effective ways to secure that new job.

This series of Career Programs complements the Career Transition Network lunches also sponsored by the Membership Committee (see the related story on p. 3).

All members and friends are welcome to join us on February 4 for the "Nuts and Bolts" session; there is no charge, but reservations are required to ensure we order enough beer and pizza. To reserve your seat, write/call bsa@architects.org/617-951-1433x221. 

*Elizabeth Spelman, Assoc. AIA, Chair
Membership Committee*

Effort to "coordinate" codes is under way...architects wanted

Somewhere in a smoke-filled room in a long and winding corridor, representatives of state government agencies and of code-promulgating boards are involved in a tug-of-war that will shape the construction industry in Massachusetts for the indefinite future.

This group of officials is the Code Coordinating Council created with an Executive Order a few months ago by then-Governor Jane Swift in an effort to improve the regulatory climate of the building industry in Massachusetts and to stimulate the construction of affordable housing.

The BSA has joined other industry groups in an effort to provide private-sector leadership in this process and to ensure that the results are meaningful. Join us at the BSA Codes Committee meeting this month on **January 15** at 8:30 am at the BSA as we design our effort to shape a rational and coordinated code environment in the Commonwealth. No cigars allowed. 

*Vernon Woodworth AIA, Chair
Codes Committee*

Do you love cities?

Next September, the BSA hosts the National Conference on Density, a three-day exploration of density, serendipity, and smart urban growth.

The conference is co-sponsored by the national AIA Housing PIA, the national AIA Regional and Urban Design PIA and other allies and the event (September 12–14) includes workshops, case studies, tours and panel discussions and is complemented by a national urban design competition administered by the BSA Urban Design Committee.

Over 300 architects, planners, developers and other urban design wizards around the country are expected to attend...and the BSA is now seeking members and allies interested in working on the volunteer committee that is now beginning to plan the event.

The committee is led by BSA president David Dixon FAIA and Randy Jones AIA and already includes a number of individuals interested in specific aspects of the planning process. For more information on how to participate in this venture, write/call Alexandra Lee at the BSA (alee@architects.org/617-951-1433 x225). 

Find it on-line

Visit the award-winning BSA website at www.architects.org for details on all BSA news and events and other industry news, events and information.

Parker Medal jury honors Northeastern spiritual center

At the BSA Annual Meeting last month, the BSA membership voted to confer the 2002 Harleston Parker Medal for Architectural Excellence on the Northeastern University Multi-Faith Center (below) designed by Office dA.

Dan Bibb

A special awards presentation at the Center will occur later this year. In the meantime, the project is highlighted in the annual design awards issue of *ArchitectureBoston*, which hits the newsstands later this month and also includes the work honored in all of the 2002 design awards programs.

The jury that recommended the Multi-Faith Center for the Parker Medal was chaired by Kimo Griggs AIA (James Kimo S. Griggs Architect) and included Rebecca Barnes FAIA (Boston Redevelopment Authority), Robert Brown IIDA, AIA (CBT/Childs Bertman Tseckares), John Carlson (TAMS Consultants), Jean Carroon AIA (Goody, Clancy & Associates), Bob Cunkelman P.E. (MIT), Tim Love AIA (Machado and Silveti Associates), Judith Nitsch P.E. (Judith Nitsch Engineering), Charlotte Golar Richie (Boston's Department of Neighborhood Development) and Andrew Wang AIA (Koetter, Kim & Associates).

For more information on the Parker Medal, write/call Richard Fitzgerald (rfitzgerald@architects.org) 617-951-1433x232).

*Duke Reiter AIA, Commissioner of Design
BSA Board of Directors*

ArchitectureBoston celebrates exceptional design

The third annual awards issue of *ArchitectureBoston* is being mailed to all BSA/AIA members in New England and New York and other *ArchitectureBoston* subscribers this month. This special January/ February issue focuses on well-designed projects recognized in the BSA's 2002 design awards programs in healthcare facilities, housing, interiors, unbuilt architecture, K-12 educational facilities, the annual Honor Awards for Design Excellence, the Harleston Parker Award (see the story in the adjacent column) and other honors and awards earned by Massachusetts architects.

Additional copies of this special annual issue may be ordered from the BSA. Call/write me at 617-951-1433x227/njenner@architects.org for details.

Nancy Jenner, Managing Editor

"Green" cost-estimating and project planning are detailed

Green Building: Project Planning and Cost Estimating is a new publication available from the BSA that focuses on critical sustainable design issues.

Published by R.S. Means, the book's authors — architects, engineers, facility managers and contractors — provide "a step-by-step look at every aspect of planning, designing, estimating and commissioning structures that are environmentally sustainable, healthier and cost-effective. Among the issues addressed are energy- and resource-saving strategies such as low-E windows, reflective roofing, solar technologies, and efficient utilities systems as well as low- or no-VOC finishes and natural fibers and the use of recycled and renewable materials.

The authors also offer suggestions of tools needed to identify/compare/specify green materials and systems, details about rating systems such as LEED and EnergyStar, how to take advantage of financial incentives and funding sources, and how to determine the cost of green products and calculate energy savings and payback periods.

The book is available from the BSA online at www.architects.org (click on 'BSA store'); it is item #347 in the BSA Books & Gifts Catalogue...or call/write 617-951-1433x221/bsa@architects.org.

Eck's work inaugurates new publishing venture

The work of Boston architect Jeremiah Eck FAIA, founding principal of Jeremiah Eck Architects, has been selected by The Taunton Press and the national office of the AIA to launch a new publication effort to bring architectural excellence to a broad public audience.

The Distinctive Home: A Vision of Timeless Design is the title of the first book bearing the new AIA/Taunton Press imprint and is a remarkable verbal and visual exploration by Eck of residential design.

The book is available from the BSA. To order, visit www.architects.org and click on 'BSA store'; the book is item #346 in the BSA Books & Gifts Catalogue...or write/call the BSA at bsa@architects.org 617-951-1433x221.

EF 3.0 Plus Release 2!

The recently launched AIA Contract Documents Electronic Format 3.0 Plus has already been improved with a new release available for downloading by any current EF user.

The improvements are based on suggestions received in the past few months from early users of EF 3.0 Plus. To take advantage of Release 2, go to the AIA website (www.aia.org), download and save the file to your computer, click 'OK' to begin unpacking the upgrade and the upgrade files should extract themselves into a folder on your Windows desktop. After the files are extracted, double-click the START file to take a tour, learn about new features, or begin installation.

Windows XP, NT, and 2000 users should note that when installing and using EF 3.0 Plus Release 2 you must be logged onto the computer with administrator access rights for the PC. If you are not, you will likely experience corruption of the program's meter or you may receive security error messages. To avoid these problems before installing, contact your firm's network administrator to identify your current access rights.

If you have not installed any AIA electronic format software and would like to, call/write the BSA at 617-951-1433x221/bsa@architects.org and we will get you started. The BSA, of course, also stocks all hard-copy AIA documents, which can be ordered by writing/calling the same number/address or visiting the BSA website at www.architects.org (click on 'BSA Store').

Meghan Warner, AIA Documents Manager

BSA receives grant for kids design programming

Learning By Design in Massachusetts, the BSA effort to bring design awareness into schools throughout the Commonwealth, was strengthened recently with a \$2,500 grant from The Boston Foundation.

The grant is part of the Foundation's Vision Fund program intended to provide small amounts of flexible "working capital" to help efforts such as Learning By Design to test new ideas and otherwise engage in activities that will strengthen the program

The BSA program, administered by master teacher/director Jan Ham and by Polly Carpenter AIA, has proved to be an extraordinarily effective effort to incorporate design into school curricula. For more information on Learning By Design, write/call Ham at lbd@architects.org/508-528-4517 or Carpenter at pollycarp@email.com/617-492-8266.

Designers shape public policy

The BSA recently published a guide to shaping public policy. This short, informative brochure outlines public policy initiatives of the Boston Society of Architects and the AIA Massachusetts. It also includes guidelines for lobbying techniques and descriptions of how Massachusetts design professionals have succeeded in their efforts.

The guide is available online at www.architects.org (click on 'Committees,' 'Committee News' and 'Legislative Affairs') or write/call the BSA at bsa@architects.org/617-951-1433x221 and request a printed copy.

Accurate credit is due

In the last issue of the ChapterLetter (December 2002, p. 6), we inadvertently inverted the design and construction credits for two of the award-winning projection kiosks that were highlights of the BSA Build Boston Design Celebration.

The correct credits are as follows:

Kiosk #1 below was designed by Scott Henderson and built by Beacon Skanska and Kiosk #2 below was designed by Jack Ryan Design Studio and built by GF Rhode Construction and Boston Woodworks.

We apologize to both of the skilled designers and the extraordinarily generous contractors for not getting this right the first time.

What are we getting for our dues?

This ChapterLetter feature each month highlights one useful program/service/activity our BSA dues help underwrite.

This month we draw special attention to the extraordinary work of the BSA Urban Design Committee, the Board of Directors, and the membership at large for the consistent and effective efforts to promote superior urban design, smart growth and community development in our region. The special BSA-sponsored presentation at the BPL on February 4 (see p. 1) is but one example of the profession's commitment to urban design advocacy.

The neverending contribution of intellectual energy that members bring to the neverending urban design dialogue is one more professional and community service we help underwrite with our dues.

*Jim Dunn, CPA,
Assoc. AIA
BSA Treasurer*

New design firm financial survey reports are available

The 2002 survey of U.S. architecture firms recently released by the national office of the AIA offers a comparison of what architecture firms of various sizes are paying professional and administrative staff members in 28 categories and the report includes data on specific regions and cities.

This popular report is available from the BSA at www.architects.org (click on 'BSA store'); it is item #166 in the BSA Books & Gifts Catalogue...or write/call bsa@architects.org/617-951-1433x221.

An annual survey of architecture firms administered by Tofias PC, the Cambridge CPA and consulting firm focusing on the architecture and engineering professions, is available in a 20-page booklet titled "Tofias Architectural Survey/A Compilation of Key Industry Statistics". The report includes data on overhead rates, average direct labor billing and break-even multiples, operational averages, and other financial statistics. For ordering information, call Tofias at 888-761-8835.

A similar survey report is also available from Kanter Troy Orleans & Wexler, the CPA firm in Boston. Titled "2002 Architectural Study/A Comparative Survey of Statistics and Trends in Architecture", the report addresses balance-sheet ratios, components of the break-even multiple, trend analyses, etc. For ordering information, call David Wexler CPA at 617-753-6060.

IT, HR, \$, PR & OM — not for architects

Every month, design-firm IT professionals, human resources professionals, financial managers, PR and marketing professionals and office managers gather independently at the BSA over lunch to share information and enrich their networks.

If you serve in any of these roles — or similar roles — and would like more information on how to benefit from these free lunches and great conversations, write/call Richard Fitzgerald at the BSA (rfitzgerald@architects.org/617-951-1433x232).

This month the IT group meets at noon on **January 8**; the HR group meets at noon on **January 28**, the financial management group meets at noon on **January 15**, the PR and marketing professionals network meets at 8:00 am on **January 22**, and the office managers/administrators gather this month at noon on **January 9**. Join us — members and non-members are welcome. To reserve your free lunch, call/write 617-951-1433x221/bsa@architects.org no later than 9:30 am on the day of the meeting.

Fee-bidding is short-sighted

The following is excerpted from Negotiating Strategies, the national newsletter published by Strogoff Consulting in California (www.strogoffconsulting.com).

"...[In] any economy, the basic tenets of negotiating appropriate fees remain the same. You must illustrate value, convey how your firm differs from the competition, explain the scope of services and effort required, and discuss the benefits your clients will realize. While a design professional's first inclination in a buyers' market might be to lower fees, this is only one of several strategies available for competing in a tough economy. Unless your firm has substantial cash reserves or finds ways of delivering its services less expensively, lowering fees is short-sighted and may place your firm in a precarious financial position.

"Instead, illustrate ways of lowering construction and operational costs, making buildings more efficient, specifying less costly materials, expediting agency reviews or otherwise achieving clients' objectives. If a prospective client still compares your fees to those of less expensive firms, try this strategy. First, acknowledge to the prospective client that, yes, there are less expensive [design professionals] willing to take commissions with low fees. Then convey that your firm has made a deliberate choice not to compete based on price. Tell [clients] that to do so would prevent you from providing the depth and quality of services that are in your clients' best interest. Further, explain that matching some of your competitors' low fees would keep your firm from retaining the brightest and most creative [designers] or providing the level of quality control upon which your firm built its reputation. Once prospects understand these reasons, most will reconsider basing their selection primarily on price. And consistently reiterating your choice not to compete based on price could reinforce your firm's image as a leading [provider of high-quality service].

In the same issue of that newsletter, the publisher notes that "clients gain more respect for design professionals who are diligent in their negotiations than those who are too quick to accept clients' proposals" and that designers "who lack confidence make more concessions negotiating with themselves than with the other party."

Only 13 Fridays left before it's too late

March 28 is the deadline for the title, description, and panelists' names for the workshop you wish you had done at Build Boston a few months ago and now realize you can do it for Build Boston this year.

Some 13,000 professionals from the Northeast and elsewhere registered for Build Boston last November; the quality of the Build Boston professional development programming certainly is a major reason for that.

For a workshop proposal form, visit the web at www.architects.org and click on 'Quick Links' and you can either download the workshop proposal form to complete it manually and mail it to the BSA, or you can enter your proposal on-line.

For a hard-copy proposal form, write/call the BSA at bsa@architects.org/617-951-1433x221 and request workshop proposal form BB-14.

The deadline is March 28, which means you only have 13 Fridays left to do this.

Questions? Call write/call Richard Fitzgerald at rfitzgerald@architects.org/617-951-1433x227.

Who should get credit for design work?

In the past decade, a dozen major decisions on cases brought before the AIA National Ethics Council focused on the issue of taking or giving appropriate credit for design work.

The BSA has assembled a full package of information that includes the AIA Code of Ethics and all of the written decisions and advisory opinions issued by the Ethics Council on issues such as inaccurate attribution of credit and the failure to give credit, uncompensated design services, referral fees and conflicts of interest, misrepresentation of qualifications, the withholding of photographs and other material from former employees, negligent interpretation of zoning regulations, endorsements and conflicts of interest, employment discrimination based on gender, supplanting, the failure to get clients' consents to design changes, the use of other architects' drawings, manufacturers' indemnifications and conflicts of interest, the failure to report employees' lies or misstatements of qualifications, etc.

For a copy of this 134-page packet (it's only available by mail), send \$25.00 (\$10.00 for members in Massachusetts) and a 9"x12" SASE (\$3.00) to Ethics Package/RF, BSA, 52 Broad St., Boston 02109.

New models of design practice are described

At Build Boston in November, one of the most provocative sessions was the two-part presentation by Kyle Davy AIA of the research on design practice being done by the Advanced Management Institute for Architecture and Engineering (AMI) in San Francisco.

Davy's presentation was based on "Discovery: A Search for New Models of Practice", the September 2001 report on AMI's research into the way design firms function. Co-authored by Susan Harris Ph.D., an AMI senior fellow specializing in organizational development and training, the report describes current "antiquated" business models for design firms, playing catch-up in the "knowledge economy", creating value rather than selling hours, collaboration and transformation, the evolutionary role of technology, and "the new ecology" of design firms.

This 70-page report is available from the BSA. To order, visit www.architects.org and click on 'BSA store'; it is item #344 in the BSA Books & Gifts catalogue...or write/call bsa@architects.org 617-951-1433x221.

YDPDI 2003 is now accepting registrations

The fifth annual class in the BSA's Young Designers Professional Development Institute begins in March. Registration is open now.

This is the program that brings young designers together for four hours each month for 12 months for training in basic office and practice skills. This unique training opportunity has proved to be an effective means of helping young designers make the transition from school to work. Over the course of the year, the young designers enrolled in this program are taught basic writing skills, project management skills, presentation skills, finance and budgeting management, and a good deal more. For details on the class starting in March, write/call the BSA at 617-951-1433x221/bsa@architects.org.

Architects, contractors and subcontractors are fueling materials-recycling effort

Architects, contractors and subcontractors are taking advantage of a unique opportunity to develop a collaboration with Boston's non-profit Building Materials Resource Center.

The Center, located in Roxbury, is a building materials re-use project that relies on donations of good-quality used and surplus building materials and redistributes those materials to low-income and working-class homeowners and inner-city non-profit organizations. The two-part goal is to improve the quality of life in Boston's inner-city neighborhoods by facilitating long-term homeownership and simultaneously to prevent the needless disposal of perfectly good building materials.

Those who are contributing used, surplus and other building materials to the Center in addition to architects include homeowners, contractors, construction companies, retailers, manufacturers, wholesalers and others who receive a tax break for the estimated fair market value of the donated materials (and they also save on disposal fees).

For details, call 617-442-8917.

Noble and Wickersham form new law partnership

Long-time Hill & Barlow construction law wizard Chris Noble, Hon. BSA (above) and architect/attorney Jay Wickersham AIA, until recently Assistant Secretary for Environmental Affairs for the Commonwealth, have opened a new law firm at 1280 Mass. Ave., Cambridge 02138 (in Harvard Square). Noble, a long-time advisor to the BSA, as well as scores of design firms in the region, notes that he and Wickersham will be providing personalized general counsel services to design firms and environmental/land-use services to owners/clients, lawyers, consultants and public agencies.

Dialogue V:**Diversity in our profession**

Why is the architecture profession so slow to reflect the diversity of the public we serve...and what can we do about it?

According to the AIA, 11% of our members throughout the nation are women, 3% are Asian-American, 2% are Latino, and less than 1% are African-American. The voices of huge segments of our society clearly are not being heard in architectural education and discourse, in the field, at meetings, at the design table and in planning, preserving, growing and improving our cities.

These issues were the focus last September of a special joint meeting of the BSA's Young Professionals Advisory Council and the BSA's Women in Design Network. Many young women said they did not feel they faced discrimination on the job, either in firms or at construction sites. So why is the attrition rate for women in architecture higher than for men at every stage of the profession? Does the picture change at the upper levels of experience? For women, is having a family on a collision course with a demanding architectural career of unpredictable deadlines and overtime? A woman at my graduate school once stood up at a school-wide meeting and said that to be poor at this school was to be a minority. She was absolutely right. For both women and minorities, is the *concept* of becoming an architect not on the radar screen when making career choices? For minorities, is the equation of an expensive graduate education with a low pay-scale at the end untenable?

Perhaps the national AIA Diversity Committee could sponsor programs that would pay for architectural graduate education in return for public service in rural or inner-city communities. Perhaps there can be a greater national push to introduce architecture as a profession to college-age minority students. At the same time, the "education culture" of architecture schools and the "corporate culture" of practice and professional organizations must include, respond to, and celebrate women and minorities, and work to remove a lingering feeling of not belonging.

We need to continue to discuss these issues, to find solutions together so that the diversity of our clients is mirrored in the diversity of our profession. Our query this month then, is: **What are the causes of the lack of diversity in our profession and what can we do to shape a more diverse architecture profession in the future?**

As usual, join this dialogue by e-mailing me at rachel-munn@earthlink.net. We will publish your comments as space allows in subsequent issues.

Rachel Munn AIA, "Dialogue" Moderator

The continuing dialogue

These are comments from readers responding to questions posed in earlier columns:

"What can be done to encourage a shift in values toward a better understanding and appreciation of design..." [the 9/02 query]

"I just returned from my eighth trip to Italy...a country in which architecture both historical and new makes a difference in everyone's life, a country in which an architectural education is the basic liberal arts education." – *Robert Brown, IIDA, AIA, Boston*

"What is it about our work that gives us the deepest satisfaction?" [the 10/02 query]

"When a former client for a custom home calls me out of the blue a few years after the house is finished and tells me he is sitting in his 34th-floor New York City office thinking about where he would rather be and tells me he would rather be in his sitting room in the chair we positioned for him to ensure a view of the pond he loves, that is a good day for both of us." – *Mark Hutker AIA, Vineyard Haven, MA*

BAC interior design degree program receives accreditation

The Boston Architectural Center (BAC) recently announced the accreditation of its Bachelor of Interior Design and Master of Interior Design programs by the Foundation for Interior Design Education Research (FIDER). Both degree programs have been accredited for six years, the maximum term allowable.

The BAC's Master of Interior Design program is only the second Master's program in the U.S. to receive FIDER accreditation.

BAC president Ted Landmark, Assoc. AIA noted that the center's interior design programming in general was strengthened significantly by the recent appointment of [Lisa Whited IIDA, ASID](#) as head of the program.

For more information on the BAC, call Anne Merrill at 617-585-0266.

Lisa Whited IIDA, ASID

National ad campaign is on the air and in the magazines

"Get architects into the mix at the conceptual stage of the project...Architects add value to homes, schools, hospitals, government buildings, commercial development and communities in general...AIA membership is a crucial credential."

These are among the messages that the national AIA radio and magazine advertising campaign began taking to the public in the U.S. last September.

Aimed at decision-makers in carefully targeted market segments, the campaign seeks to motivate clients to engage AIA members early in the planning process well before conceptual design and lasting through building occupancy and operation. The core message developed by the national AIA advertising agency is this: A relationship with an AIA-member architect from the very beginning of any planning or design discussion will help homeowners and business owners realize their objectives in ways they might never have expected.

The primary vehicles for the ad campaign are the national radio networks that provide national and business news to local radio stations across the country. Familiar examples include CNN Radio News, Wall Street Journal Reports, Market Watch, Charles Osgood, and the regular hourly network news programs. Through the end of 2003, the airwaves will enjoy 700–800 network-delivered ads of 30 or 60 seconds each channeled to 7,000–8,000 radio stations in the nation.

The voice of the AIA for this radio campaign is actress Allison Janney, known to viewers of "The West Wing" as press secretary C.J. Cregg.

Supplementing the radio ad campaign are magazine ads running from now until the end of next year. Concentrating on market-specific professional, institutional and trade magazines — and tied conceptually to the radio ads — the ads appear in publications such as *Governing Magazine*, *U.S. Mayor*, *Modern Healthcare*, *Architectural Record*, *Commercial Property News*, *National Real Estate Investor*, *Urban Land*, *AS&U*, *American School Board Journal*, *Multi-Family Trends*, *Builder*, and *Professional Builder*.

Each market segment has its own ad with copy and images drawn from the working context of a specific target market.

Arthur Cohen AIA
Commissioner of Communications & PR
BSA Board of Directors

Calls for entries: 2003 design awards programs

This year the BSA administers a variety of design awards programs including a first-time-ever program focusing specifically on the design of higher-education facilities in New England and elsewhere. The full schedule of this year's programs is as follows:

- ▲ **Harleston Parker Medal** (sponsored by the City of Boston and the BSA, this is the annual effort to identify "the single most beautiful" building or other project built in the MDC area in the past 10 years; nominations are due by **February 1** and may be e-mailed to Richard Fitzgerald at the BSA (rfitzgerald@architects.org). Nominations need include only the name and address of the project and, if known, the architect.
- ▲ **Higher Educational Facilities** (this new program is sponsored by the BSA/SCUP Roundtable and invites New England architects to submit work they have done throughout the world and also invites architects elsewhere to submit New England projects; the deadline is **March 4**)
- ▲ **Sustainable Design** (sponsored by the BSA's Committee on the Environment, this biennial program solicits submissions from design professionals throughout the country; the deadline is **April 4**)
- ▲ **Urban Design** (this biennial program takes a special turn this year as it becomes a national design competition focusing on specific sites and linked to the BSA-sponsored National Conference on Density in September; the competition submission deadline is **May 5**)
- ▲ **AIA New England** (sponsored this year by the Western Massachusetts Chapter of the AIA, this annual regional design awards program invites submissions from all New England architects and architects elsewhere in the world who have built projects in New England; the deadline is **May 19**)
- ▲ **Unbuilt Architecture** (any architect, architectural educator, and architecture student anywhere in the world is invited to submit real or theoretical projects to this annual program; the deadline is **July 15**)
- ▲ **Honor Awards for Design Excellence** (the annual BSA honor awards program, co-sponsored each year by Poole Professional Ltd. and DPIC, invites submissions of any project of any type anywhere in the world by Massachusetts architects and also invites projects in Massachusetts designed by any architect in the world; the deadline is **August 4**)

*In addition to these design awards programs/competitions, the BSA also administers the annual **Build Boston Juried Exhibits** of work by New England architects, interior designers, and landscape architects; the deadline for this is **August 1**.*

The Calls for Entries for all of these programs will soon be available on the web at www.architects.org (click on 'Design awards programs') and are also available from the BSA at bsa@architects.org/617-951-1433x221.

Do you want work? visibility?

The BSA website (www.architects.org) includes interactive firm listings. The new online listing format is both an excellent resource for clients and others seeking information about BSA firms and an interactive Internet tool. Easy to edit by firm administrators, this new online directory takes advantage of the fluid nature of Internet publishing to create a resource that is constantly changing and current.

AIA firms and sole practitioners in Massachusetts are encouraged to keep their profiles current through the easy update form online. AIA firm principals were recently sent information on how to update firm listings. If you are not sure of the process or have misplaced your log-in information, send your firm name to BSA membership director Penny Mitchell at pmitchell@architects.org and she will come to the rescue.

In addition to the AIA firm directory, the new website includes a directory of Corporate Affiliate members, a directory of firms that do residential and small-commercial design, a BSA membership directory and a directory of AIA chapters.

Are architects and specifiers your customers?

If you are a building industry manufacturer, distributor, supplier, vendor or other professional seeking to sell building products or building materials to architects and other design and construction industry professionals, you may wish to consider advertising new products and services in *ArchitectureBoston*, the BSA's magazine distributed to over 17,000 readers.

You might also consider exhibiting your products and materials at the 19th-anniversary edition of Build Boston, the U.S. building industry convention and tradeshow in November. There is always a waiting list for exhibitors-come-lately, so we urge you to call the BSA/Build Boston marketing team now.

For more details on how to advertise in *ArchitectureBoston*, how to take advantage of Build Boston, or how to use other BSA printed and electronic vehicles to get the word out about your products and services, call Brian Keefe at 800-996-3863.

Want a study date?

At any one time, there are dozens of young designers in the Boston area studying for the A.R.E. If you are one of these soon-to-be architects and would like to find others with whom to study, you are not alone.

In response to requests from young designers, the BSA has begun collecting contact information of all those interested in forming A.R.E. study groups. If you would like to be added to this network, write/call bsa@architects.org/617-951-1433x221 and ask for the A.R.E. study group form or download the form at www.architects.org, click on 'Resources for interns'.

BSA membership is open to everyone

There are six categories of membership in the BSA — two for architects and interns and four for others in the building industry and the public.

For architects and architectural interns:

AIA — This is the AIA/BSA membership for architects registered in the U.S.

Associate AIA — This is the AIA/BSA membership for unlicensed professionals who hold a degree in architecture and other technical professionals who work under the supervision of an architect. (The first year of national and local Associate AIA membership is free for all architecture school graduates who join within one year of graduation.)

For individuals who are not architects and for businesses other than architecture firms, there are four BSA membership opportunities:

Corporate Affiliate — For building industry firms (consultants, engineers, developers, contractors, interior designers, landscape architects, attorneys, manufacturers, vendors and other firms/companies) with an interest in working more closely with architects and enhancing architects' awareness of their products, services and materials; this is a firm membership and includes up to five Professional Affiliate memberships.

Professional Affiliate — This is the professional membership opportunity for industry professionals (other than architects and architecture graduates) who wish to share ideas, to grow professionally and to improve their firms' operations through participation in the extensive BSA network.

Subscriber — This is for individuals (other than architects, architecture graduates, and allied building industry professionals) who have a special interest in architecture, urban design and planning and would like to receive the BSA ChapterLetter and magazine (*ArchitectureBoston*); AIA members of chapters outside of Boston are also frequently Subscribers.

Student Affiliate — All individuals registered as full-time students are invited to take advantage of this membership opportunity.

Applications for all membership categories are available online at www.architects.org (click on "Membership") or write/call BSA membership director Penny Mitchell at 617-951-1433x228/pmitchell@architects.org.

Members adopt \$3.1-million BSA operating budget

At the BSA Annual Meeting last month, members voted to adopt a Board-proposed operating budget of approximately \$3.1 million for this fiscal year. Of special note were these budget elements:

- ▲ the projection of a surplus to ensure the availability of funds for BSA building renovations, operating reserves, the impacts of significant downturns in the economy and other predictable and unpredictable events;
- ▲ the continued expansion and redesign of *ArchitectureBoston*;
- ▲ the continued growth of Build Boston, now in its 19th year as one of the BSA's primary services for the building industry;
- ▲ the continuing expansion of member services and public services provided through the BSA's award-winning website;
- ▲ the renewed services of our legislative advisor and our public relations consultants retained to enhance architects' impacts on public policy and wider public appreciation of the impact of design on our lives;
- ▲ the enhancement of programs and services that address the needs of young designers with emphasis on career services, the Young Designers Professional Development Institute, and the Young Professionals Advisory Council;
- ▲ the continuing investment in the Civic Initiative for a Liveable New England as a means of promoting smart growth and the expansion of Learning By Design in Massachusetts, the BSA's in-school training program for teachers and schoolchildren;
- ▲ the development and administration of a national conference on density in Boston in September; and
- ▲ the continued outsourcing of a broad variety of programs and services to ensure that the BSA staff of ten remains flexible enough to respond to new opportunities for members and new members' needs quickly.

As the charts above reflect, only about 44% of the BSA's income is generated by members' dues; the bal-

2003 Budgeted Expenses by Source

2003 Budgeted Revenue By Source

ance is user fees and other program and service income. This low proportion of dues income is unusual and reflects the extraordinary effectiveness of BSA programming in generating revenue and enabling the BSA to function efficiently and effectively without significant annual dues increases.

For more information on or copies of the BSA operating budget, write/call Richard Fitzgerald at rfitzgerald@architects.org 617-951-1433x232.

Jim Dunn, CPA/Assoc. AIA, Treasurer

Jim Dunn, CPA/Assoc. AIA

New leaders take office

Domenic Carbone AIA (below left) has been elected president of AIA New England, the consortium of all of the AIA chapters in the region. Carbone, a member of the Rhode Island Chapter of the AIA, is a principal with Kite Carbone Architects in Providence.

Jenny Edwards

Peter Nobile AIA (above right) has been elected president of AIA Massachusetts, the statewide consortium that includes the BSA, the Central Massachusetts Chapter of the AIA and the Western Massachusetts Chapter of the AIA. Nobile, an articulate BSA advocate of sustainable design over the past decade, is with Shepley Bulfinch Richardson and Abbott in Boston.

Loft Photo Studio

Kathryn Crockett AIA (above left) begins her second year as president of the Central Massachusetts Chapter and **Jonathan Salvon AIA** (above right) has been elected president of the Western Massachusetts Chapter. Crockett is with Lamoureux Pagano & Associates in Worcester and Salvon is with Kuhn Riddle Architects in Springfield.

For more information on the structure of the AIA in our region and nationally, send requests with a 37¢ SASE to AIA Network/RF, BSA, 52 Broad St., Boston 02109.

Women honored for design achievements in BSA exhibit

Shauna Gillies-Smith (Ground/Urban Landscape & Public Art), Sharon MacNulty (Mostue & Associates), Tamara Roy AIA (Elkus/Manfredi), Angela Ward Hyatt AIA (Schwartz/Silver Architects), and Liliane Wong (Mahon Wong Associates) were the recipients of special recognition awards in the 2002 Women in Design Exhibit at Build Boston in November.

This annual exhibit – titled “Transformation: The Experience of Design” – showcased 37 projects in which women played an active role as designers, planners, engineers, managers, clients and builders. The exhibit is now traveling to a variety of regional sites including Wentworth Institute of Technology (through January 10), South Station (January 13–24), the Boston Public Library (throughout February), the Massachusetts State House’s Doric Hall (April 14–25) and The Architects Building (May 5–30).

For more information on this exhibit program, call/write Nancy Jenner at the BSA (617-951-1433x2271/njenner@architects.org).

Groundbreakers honored for exceptional contributions

Massachusetts Bay Transportation Authority director of design **Barbara Boylan AIA**, Goody, Clancy & Associates principal **Joan Goody FAIA**, and National Architectural Accrediting Board executive director **Sharon Carter Matthews AIA** were honored at Build Boston in November for their exceptional contributions to the design professions, to the building industry, and to our community over a substantial period of time.

These three leaders were the guests of honor at the annual Women in Design Network awards luncheon during Build Boston. This is the third year these honors have been conferred by the Women in Design Network, which also sponsors a day-long conference each year at Build Boston.

In addition, the Network conferred a special posthumous award honoring the late Lloy Hack IIDA, who died in 2001, for her extraordinary contributions to our industry. During her career, Hack worked for Marcel Breuer, Cambridge Seven, and Payette Associates before starting her own firm in 1978.

The Women in Design Network meets monthly at the BSA for early-evening conversations on practice, career, design and related issues (see p. 3). All women in all of the design professions are invited to become part of this network.

For more information, write/call Nancy Jenner at the BSA (njenner@architects.org/617-951-1433x227).

PR, the Plaza, and public professionals are the focus

BSA president David Dixon FAIA reports regularly in this column on the work of the BSA Board of Directors

- ▲ The BSA's **public relations efforts** have been greatly enhanced in recent months with the development of a new relationship with the public relations consortium of Polaris and Bachrach & Co. Public relations wizard Karen Schwartzman, founding principal of Polaris, joined forces with BSA legislative advisor George Bachrach to serve as the BSA's new public relations counsel. The effort is focused on elevating public awareness of the impact of design on our lives and on the role architects play in every facet of our culture.
- ▲ The effort to **revitalize Boston's City Hall Plaza** recently began anew when Mayor Tom Menino created a new task force to focus on the redesign of the Plaza. Leers Weinzapfel Associates' principal Jane Weinzapfel FAIA has agreed to serve as the BSA representative on the new task force.
- ▲ K-12 Educational Facilities Committee co-chair John Miller FAIA recently provided the Board with a comprehensive update on the **state of public-school construction** in Massachusetts, noting particularly the growing problems for public schools trying to address consistent construction problems. Miller noted efforts to develop a post-construction audit process to assess the design and construction of all public schools in an effort to improve the quality and reduce the cost of such construction.
- ▲ Each month the Board invites the chair or chairs of a BSA committee/task force/network to describe the current work and issues being addressed. In recent months, Public-Sector Architects Committee co-chairs Diane Georgopoulos AIA and St. John Smith AIA and Historic Resources Committee co-chairs Henry Moss AIA, Matt Bronski P.E., and Sara Wermeil each provided the Board with comprehensive (and often challenging) overviews of the history and current work of each group. Among other things, Georgopoulos noted the need for the BSA to provide significantly enriched career and professional development services for the large number of **architects who staff public agencies** at the local and state levels. Moss and his colleagues described the advocacy efforts of their committee and also noted that it had spun off a strong local chapter of **DOCOMOMO**, the international organization seeking to preserve significant work of the Modern movement.
- ▲ Tom Fisher FAIA, dean of the school of architecture at the University of Minnesota, recently made a presentation to the national AIA Board of Directors on the need to rethink the **relationship**

between architecture schools and practitioners. A transcript of Fisher's presentation sparked a recent discussion of these issues at one of our Board meetings; it served as a reminder of the close relationship educators and practitioners enjoy in Boston but also underscored the need to expand these intellectual and practical connections.

- ▲ The BSA has created a relationship with **Tremont Credit Union**, the result of a significant amount of work by BSA Finance Committee members Deb Mahoney of Koetter, Kim & Associates and Tim Grobleski of Symmes Manni & McKee. This valuable new service for BSA members and our families and colleagues is described elsewhere in this issue of the ChapterLetter.
- ▲ The continuing and persuasive effort to elevate design issues in the discussion of **the future use of the post-BigDig land**, a discussion led over the last two years by Robert Brown IIDA, AIA and Marc Margulies AIA, has been extremely successful and includes a special BSA-hosted public presentation this month on the design proposals for three of the Artery parcels. (See the story on p. 1.)
- ▲ **The trend toward specialization** in our profession has been the topic of several recent Board discussions. Recently, we focused on a white paper developed by Tom Payette FAIA, Chuck Redmon FAIA and other local leaders focusing on the potential danger of converting architectural generalists into niche specialists through the creation of new organizations, new examinations, new certification processes, etc. The debate continues locally and nationally as the BSA seeks to identify ways the AIA can provide the kinds of services for architects that would make such specialization either unnecessary or would re-focus efforts of those in favor of specialization on continuing education and the development of knowledge in the profession.
- ▲ 2002 president Robert Brown IIDA, AIA has been appointed to chair **the BSA's Long-Range Plan Task Force**, which is charged to develop a new plan for the BSA for the next five years, which would succeed the successfully implemented 1996 Long-Range Plan. All BSA readers interested in working on this 2003 effort should write Nancy Jenner at the BSA (njenner@architects.org).
- ▲ The Board unanimously endorsed the appointments of Nathalie Beauvais of Harvard GSD and Peter Wiederspahn AIA of Northeastern University to the **Rotch Traveling Scholarship Committee**.

For more information on the activities of the Board of Directors, call/write Richard Fitzgerald at 617-951-1433x232/rfitzgerald@architects.org.

Members and industry allies support design programming

The Boston Foundation for Architecture (BFA), established by the BSA in the mid-1980s, has recently been strengthened by contributions that enhance the Foundation's efforts to elevate public-awareness of design in Massachusetts.

- ▲ **The MBNA Foundation** contributed \$2,000 to the BFA in honor of BSA member Richard Morehouse AIA, who has provided valuable services to the MBNA Foundation in its efforts to support local schools.
- ▲ **LeMessurier Consultants** in Cambridge recently contributed \$1,000 to the BFA specifically to support the annual grants program that supports community groups and public-school programmers focusing on design.
- ▲ **Joseph G. Dion AIA** is among many BSA members who have recently made their own contributions to the BFA in support of this long-term effort to enrich public appreciation of architecture.
- ▲ **George M. Pappas** has also contributed to this effort by making a donation specifically to the BSA in support of its public awareness programs.

For more information on the BSA and BFA public-education programs and opportunities to strengthen these programs, write/call Richard Fitzgerald at rfitzgerald@architects.org/617-951-1433x232.

Professional development calendar is online

The BSA website (www.architects.org) has a special page and a special calendar dedicated to professional development opportunities. The web page and calendar include information about continuing-education programs offered by the BSA and by other education providers.

Current listings include everything from BSA committee-sponsored meetings to conferences at Salve Regina University titled "From Shingles to Columns: McKim, Mead & White and the Transformation of America."

If you are a continuing education provider and would like to list your programs on this site, visit the 'Advertise with the BSA page' or write/call Kate Gilbert Miller at kmiller@architects.org or 617-951-1433x234.

Website and placement services are effective tools

If you are looking for a job as a professional in the building industry or if you are an employer looking for professionals to fill openings in your firm, the Building Industry Classified is for you. This 17-year old BSA service, which is web-based, is inexpensive way to locate and advertise job openings. For current opportunities and rate information, visit www.buildingindustryclassified.com.

Two BSA-related training and placement services are especially valuable resources: Consulting For Architects at 617-261-0090 and Dakota DesignStaff at 978-371-0530.

Do you want or have office space (or staff) to lease?

The BSA Classifieds service at www.architects.org includes not only job openings but space-available listings, opportunities to loan or borrow staff members, a resume bank, and a variety of other career services designed to help firms and individuals navigate the unpredictable market.

If you want to advertise a job, sublet some space, rent a drafting station, loan a staff member to another firm, or tap our nonpareil design network in any number of ways, write/call classified listings editor Kate Gilbert Miller at kmiller@architects.org/617-951-1433x234.

Network the network

Would you like to become more involved in the community and the profession and you are not sure how?

BSA committees/networks/task forces are shaping the profession and our community daily...and all of these BSA groups invite all BSA members and other industry allies to join us. Information about committees, committee news and meeting information is all online; to find out more about the 50+ BSA networks, committees and task forces, browse the complete list online at www.architects.org (click on 'Committees'). You will also find news and information on upcoming meetings.

If you aren't sure which group is for you, try several or write/call BSA executive director Richard Fitzgerald at rfitzgerald@architects.org/617-951-1433x232 or deputy director Nancy Jenner at 617-951-1433x227/njenner@architects.org to explore the best BSA opportunities for you.

Want a principal or partner?

If you are seeking a principal or partner for your firm, a professional who is already functioning at the highest level in his or her own firm, you may wish to take advantage of an informal BSA service that attempts to help partner-level and principal-level professionals connect for exploratory discussions about new partnerships, mergers, acquisitions and other significant firm changes.

For more information on this free BSA service, call Richard Fitzgerald at the BSA (617-951-1433x232).

"Urban Infill Housing/Myth and Fact" is the title of a new Urban Land Institute booklet, which is part of a series of ULI publications intended to address a variety of myths regarding growth and land development. Using case studies, the booklet addresses "myths" such as the market for infill housing is weak, land costs for infill housing are likely to be prohibitive, financing for these kinds of projects is not available or is too complicated to be worthwhile, etc. To order this 23-page booklet, call 800-321-5011.

Health insurance, homeowners insurance, retirement planning, and similar issues are addressed on the new AIA Trust website, www.theaia-trust.com. The Trust is the national AIA vehicle that provides health insurance and other benefits to members nationwide. The new website also offers safety tips and articles on risk management. To reach the site, visit www.architects.org and under the homepage heading "Resources for..." click on "Architects".

Diller+ Scofidio's design for the ICA's new waterfront museum is the focus of an exhibit that opens at the ICA on January 22 and runs through April 2003. The exhibit traces the development of the project from the early concepts to the final design of this 62,000-sf museum. For details of the exhibit and a related MIT Media Lab project, call 617-266-5152 or visit www.icaboston.org.

The MBTA has been sued in a class action brought in Federal District Court by eight Massachusetts residents with disabilities. The suit challenges the MBTA "to end its systemic failure to provide basic public transportation to people with disabilities." This report is excerpted from the Fall 2002 issue of "Access New England", the newsletter of the New England ADA & Accessible IT Center. For subscriptions to the newsletter, call/write 800-949-4232 (v/tty)/adainfo@newenglandada.org.

If you came face-to-face with a shark, would you: (a) Punch it between the eyes; (b) Look it in the eyes until it backed down; or (c) Avert your eyes and slowly back-paddle? That's the first question in a test designed to evaluate your negotiating skills; the test is printed in the November 2002 issue of "Negotiating Strategies", the newsletter published monthly by Strogoff Consulting in California. For copies of and/or subscriptions to this electronic newsletter, write newsletter@strogoffconsulting.com.

Small grants for environmental activists are now available from the New England Grassroots Environment Fund, a Vermont-based grantmaker interested in building and connecting healthful, sustainable communities in New England. For details on eligibility and other issues, visit www.grassrootsfund.org or call 802-223-4622.

"The Seven Secrets of Innovative Leadership" is the title of a brief report in a recent issue of Principal's Report, the national design practice newsletter. The report touches on firm culture, employee education, the relationship of managers to clients, purchasing expertise, and other issues. For a copy of this article (available only by mail), members in Massachusetts should send requests with a 37¢ SASE to Leadership Secrets/RF, BSA, 52 Broad St., Boston 02109; readers who are not yet members should include a \$15 dollar handling fee payable to the BSA along with the 37¢ SASE. For subscriptions to Principal's Report, call 212-244-0360x640 or write rcochran@ioma.com.

"12 Tips for Better Speaking" is another article also published recently in Principal's Report. Making eye contact, controlling your hands, balancing the format, interpreting reactions correctly, and balancing the format are among the tips described. For a copy of this article (available only by mail), members in Massachusetts should send requests with a 37¢ SASE to Speaking Tips/RF, BSA, 52 Broad St., Boston 02109; readers who are not yet members should include a \$15 handling fee payable to the BSA along with the 37¢ SASE. For subscriptions to Principal's Report, call 212-244-0360x640 or write rcochran@ioma.com.

Soldati Public Relations is a new PR firm recently established by BSA ally Kathleen Soldati. Over several decades, Soldati has worked with small firms and large, in political campaigns, public television and radio, for-profit and non-profit organizations, etc. For more information, write/call ksoldati@attbi.com/603-841-5207.

The BSA ChapterLetter

The BSA ChapterLetter is published monthly by the Boston Society of Architects, 52 Broad Street, Boston 02109-4301. The ChapterLetter is a service provided by AIA members in Massachusetts to the profession, the public, and everyone else with a sense of humor or an interest in 21st-century America. (For out-of-state subscription information, call/write 617-951-1433x228/pmitchehl@architects.org.)

Letters to the editor, suggestions, criticism, encouragement, and manifestations of the light touch are welcome. Submissions may be e-mailed to rfitzgerald@architects.org, faxed (617-951-0845) or mailed (BSA, 52 Broad St., Boston 02109). Photographs may be mailed to the BSA. Digital images (minimum 300 dpi) may be e-mailed to the address above or mailed on disk or CD-ROM to the BSA. Typed, double-spaced material intended for publication must reach the BSA by noon on the deadline dates listed on page 1. Appropriate submissions are edited and published as space, temperament, and prejudices permit.

The BSA is a non-profit, membership service organization and has been an advocate of architectural excellence and public awareness of architecture since 1867.

Membership in the BSA is open to every breathing soul on the planet.
